Trail Ratings

All of our walks are rated with a number (which indicates the amount of hill climbing) followed by a letter (which indicates the smoothness or roughness of the trail). This is to help walkers gauge the degree of difficulty of the walk. Here is a summary of the ratings:

Part 1 - Incline	Part 2 - Terrain
1 Very little hill or stair climbing	A Walk is almost entirely on pavement, probably suitable for baby strollers
2 Some moderate hill or stair climbing	B A significant part of the walk takes place on well-groomed trails with very little more difficult terrain
3 Some significant hill or stair climbing	C A significant part of the walk takes place on somewhat difficult terrain (rocky/rooted paths)
4 A good deal of significant hill or stair climbing	D A significant part of the walk takes place on very difficult terrain
5 Many steep hills or high altitude trails	E The majority of the walk takes place on very difficult terrain
